Academy of College Readiness and Vocational Studies (Pre-Law and Pre-Med)

The curriculum for this program integrates medical and law terminology and incorporates direct instruction, problem and inquiry-based learning, and scientific methodology.

Lauderdale Lakes Middle School

Pre-Advanced Placement Reading Research Program

This program allows students to investigate needs at community, national and global levels to create real-world learning through reading research.

Silver Trail Middle School

INTERNATIONAL DIPLOMA & COLLEGE PREP PROGRAMS

Advanced Academic Academy: A3

This program offers academically talented students the opportunity to be eligible for dual enrollment and earn credits towards high school graduation and a future college degree.

Westpine Middle School

Advanced Achievers Academy

This program increases academic rigor beginning at sixth grade to ease transition as students matriculate from elementary to the middle school level.

Olsen Middle School

Cambridge International Program

This program prepares students for life after high school. Leading universities and employers around the world recognize students for their high academic ability.

Cypress Bay High School
Everglades High School
Falcon Cove Middle School
South Broward High School
Coral Glades High School
Tequesta Trace Middle School

College Prep

This program includes advanced coursework in literature, mathematics, foreign language, humanities, and the sciences which prepares students for high school Advanced Placement (AP) courses and college-level work.

Margate Middle School
Silver Lakes Middle School

Dual Enrollment

Students take college courses through Broward College which provides an opportunity to engage in a rigorous curriculum that integrates core academics necessary for a four-year degree, while completing a high school diploma.

Coral Springs High School

Flanagan Innovation Zone University

This program provides accelerated coursework from elementary to high school. Students can earn credit in college courses and graduate from high school with the equivalent of an Associate degree.

Charles W. Flanagan High School
Lakeside Elementary School
Walter C. Young Middle School

International Baccalaureate Primary Years Program

This program is aimed at kindergarten through fifth grade and focuses on themes such as: who we are and where we are in place and time.

Annel C Perry Pre K-8

International Baccalaureate Middle Years Program

This internationally recognized course offers students a well-rounded education based on higher level thinking skills. Students become self-directed learners and world citizens.

New Renaissance Middle School
Annel C Perry Pre K-8

Junior Advanced & Digital Academy

High achieving students accelerate learning and can earn nine or more high school credits while still in middle school. Students will be prepared to succeed in Advanced Placement (AP) courses offered in high school.

Bair Middle School

Mustang University

Program gives students the opportunity to work toward and obtain an Associate of Arts college degree in a major of their choice while simultaneously working on their high school diploma.

McArthur High School

Pre-AP/ College Academy

Students can take high school level courses in middle school which includes algebra, geometry, and biology.

Millennium Middle School

Quantum Leap Program

This program academically pushes students so they can move into Advanced Placement (AP) coursework, honors and dual enrollment.

Coral Park Elementary School
Coral Springs High School
Forest Glen Middle School
Forest Hills Elementary School
James S. Hunt Elementary School
Park Springs Elementary School

COLLEGE PREPARATORY

Fine Arts Initiative

This program develops student creativity and innovative critical thinking skills. The program can boost student achievement, improve behavior, and prepare students for college and careers.

Marjory Stoneman Douglas High School
Westglades Middle School

PERFORMING & VISUAL ARTS

Performing Arts Academy

This program is for students who desire to enhance their academic, intellectual and philosophical development through the systematic study of music, dance, theater and video production.

New Renaissance Middle School

Aeronautical Sciences

Students research and explore the concepts needed to develop a colony in space, another planet, or become an astronaut.

Apollo Middle School
West Hollywood Elementary School

SCIENCE, TECHNOLOGY, ENGINEERING & MATH (STEM-Related)

Engineering and Environmental Science

Students learn the engineering process and apply that process to real-world experiences.

Crystal Lake Middle School

Environmental Science

Students explore and evaluate the many challenges and concerns related to their environment.

Sawgrass Springs Middle School

Inquiry + Interaction = Innovation

21st Century Skills & Project-Based Learning

Supports an inquiry-based approach that enables all students to become more efficient global thinkers. Student interaction is at the forefront of all instructional activities.

Peters Elementary School

Institute of Geospatial Studies

This program builds a strong research foundation within the field of social science. Students will be prepared to enter college with a strong research background and unique skills in spatial analysis.

Western High School

K – 12 STEM Zone

Program utilizing a curriculum that is driven by problem-solving, discovery, and exploratory learning. Students actively engage together in Science, Technology, Engineering, and Mathematics.

Colbert Elementary School
Hallandale High School
Lake Forest Elementary School
McNicol Middle School
Watkins Elementary School

Project-Based Learning

This program connects common core standards through project-based learning in a multiage community.

Parkside Elementary School

School-wide Enrichment Model

Students complete projects that are matched to their talents and areas of interest as they work in multiage groups to deepen their learning and collaborative experience with peers.

Palm Cove Elementary School

Science & Technology

Science skills are emphasized through hands-on activities in a fully equipped science lab. And, networked computer labs are used to reinforce skills in all curriculum areas.

Country Hills Elementary School
Eagle Ridge Elementary School

Science, Technology, Arts, and Mathematics Preparatory (STAMP)

Incorporates a type of education focused on content learning, values of honor, leadership, commitment, self-discipline, and respect exemplified by the military.

Village Elementary School

Science, Technology, Engineering, and Mathematics

This program uses a project-based learning approach. Students gain the ability to collaborate in teams, produce solutions to complex problems, and critique the value of each other's work.

Manatee Bay Elementary School

Science, Technology, Reading, Engineering, Arts, and Mathematics (STREAM)

Expose high achieving students to a hands-on program that will further challenge their abilities and skills needed to become successful in a changing world.

Park Lakes Elementary School

Science, Technology, Engineering, Arts, and Mathematics Zone

The program focuses on a holistic approach which includes a rigorous curriculum incorporating direct instruction, project-based learning, problem and inquiry-based learning, scientific methodology in daily instruction, as well as multi-level performance and recitals.

Maplewood Elementary School
Ramblewood Middle School
Sheridan Park Elementary School
JP Taravella High School

Science, Technology, Engineering, and Mathematics Academy

This STEM Academy has two academic tracks: Biotechnology and Engineering.

Western High School

Science, Technology, Engineering, and Mathematics Academy

Focuses on student-centered learning that motivates students; provides a rigorous and technologically enhanced curriculum; and inspires creative and critical thinking.

Lloyd Estates Elementary School

Technology Infused Projects-Sunshine State

Focuses on Florida across the curriculum. Students experience project-based learning to develop higher order thinking, problem solving, collaboration, and communication skills.

Orange Brook Elementary School

Technology, Inquiry, Global-Thinking Environmental Research Social-Intelligence (T.I.G.E.R.S)

Provides students with character education focusing on social environmental and technological sciences.

Norcrest Elementary School

The School Board of Broward County, Florida

Robin Bartleman • Heather P. Brinkworth
